

**Expectations:**

Referees are expected to conduct themselves in a professional manner.

Referees will comply with and encourage compliance with the Rules and Regulations put out by UVYSL.

Games must begin at their scheduled times! If teams aren't ready, their clock still starts.

Our games must end on time! We schedule games back to back to fit them all in our contracted field availability, if one game goes over it pushes all the following back.

Referees should arrive 15 minutes early to each game, to make sure all players are checked in, (confirming they have the proper equipment on), before their scheduled game time.

It is in the referees best interest to not socialize with players, parents, or coaches during breaks and halftime unless addressing topics pertaining to the game.

If any issues arise during a game please reach out to the Referee Coordinator;
